

### Carver System

- > Multi-flexible accommodation system catches hold of the ski via its binding
- > Individual height adjustment gives the flexibility to accommodate skis of any length
- > Skis can be fastened on their bindings at a 45° angle to allow for optimum product presentation
- > Stainless steel tray with edge protection provides room cleanliness as well as safety
- > Carving system assembles 14–38 pairs of skis
- > Exact sizes in mm (L x W X H):  
1200/1450/1700/2200/2750 x 500 x 1363

### Snowboard Stand

- > Individual height adjustment of brackets gives flexibility to accommodate various types of bindings
- > Protective coating on the brackets prevents damage to snowboards to preserve value of the equipment
- > High base allows two boards to be stored with only small space requirements
- > The stand is appropriate for 16–32 boards
- > Exact sizes in mm (L x W X H):  
1200/1450/1700/2200/2750 x 810 x 2143

### Combination Stand for Skis, Helmets, and Boots

- > Flexible and vertically adjustable brackets to store skis of any length
- > Maximum space available to store 38 pairs of skis, 12 helmets, and 10 pairs of boots at the same time: great space saver, and efficiency – all within reach
- > Combination stand carries between 14–38 pairs of shaped ski, 3–9 pairs of shoes, and 5–12 helmets
- > Exact sizes in mm (L x W X H):  
1200/1450/1700/2200/2750 x 620 x 2143

### Pole Stand

- > Flexible, vertically adjustable hanging device, poles of all lengths may be stored with minimum space requirements, including nordic poles
- > Pole stand is available in one-sided and double-sided construction, and holds between 150–760 pairs of poles
- > Exact sizes in mm (L x W X H):  
1200/1700/2200/2750 x 650 (one-sided)/  
990 (double-sided) x 2523
