

### Depot storage Combination

- > Space-saving concept for two pairs of individual equipment
- > Two narrow lockers (e.g. for four pairs of skis/snowboards)
- > One locker element for four pairs of boots/accessories and gloves, with integral boot dryer and integrated hot air shoe dryer, with Fresh Air Lemon system
- > Electronical or mechanical locker system with emergency opening
- > Exact sizes in mm (L x W x H):  
550 x 720 x 2150

### Depot storage Double

- > Maximum flexibility for 2 persons
- > Space-saving safety locker for tight spaces
- > Narrow locker for 2 pairs of skis/snowboards and 2 pairs of boots, including water drain for every shoe shed
- > Integrated hot air boot drying with Fresh Air Lemon system
- > Electronical or mechanical locker system with emergency opening
- > Exact sizes in mm (L x W x H):  
550 x 360 x 2150

### Depot storage Top Four

- > Maximum storage space with minimal space requirements (e.g. for families)
- > One locker element for 4 pairs of skis/snowboards
- > One locker element for 4 pairs of boots including water drain for every shoe shed
- > Space for 4 pairs of gloves and 4 helmets
- > Integrated hot air boot drying with Fresh Air Lemon system
- > Electronical or mechanical locker system with emergency opening
- > Exact sizes in mm (L x W x H):  
550 x 650 x 2150
