Binding Adjustment Machine DIATRONIC Pro

The new DIATRONIC Pro offers your customers the highest degree of security, safety, and accuracy. Skiers can be assured in knowing their bindings are adjustment to exact industry standards and their ski boot systems are working optimally. The Diatronic Pro assures highest adjustment speed and shortest processing times in accordance with the ISO standards (i.e. ISO 11088, ISO 13993). Annually calibrated and certified by German TÜV and CE professionals, the DIATRONIC Pro stands for controlled security within your workshop and for your customers on the slopes.

Economic operation

The touch display on the DIATRONIC Pro provides higher security, enables faster processing, and guarantees more secure reliability. Moreover the DIATRONIC Pro enables overall integration of the rental process and has direct connection to your rental software. This space-saving machine comes available with casters to make the DIATRONIC Pro even more mobile.
