Ski and Snowboard Boot Cleaner

The ski and snowboard boot cleaner has been designed to offer well-tended equipment to you and your customers. Extreme pollution on foot and sides can be removed quickly. The two chamber concept enables the simultaneous cleaning of two boots in one step.

Therefore you receive clean premises, as well as long term preservation of value and function - for rental and customer boots. After cleaning the dirty water can be dumped easily. This is how you can guarantee untroubled winter feeling for your customers "from head to feet".
