

DATA SHEET USED MACHINE

(picture shows used machine)

Equipment - demonstration machine:

- with side edge
- water tank 30 L
- overall machine condition: like new

Condition of tools:

- polishing discs: Ø 295 mm out of 300 mm / width 170 mm
- diamond: like new
- side edge grinding belt: new

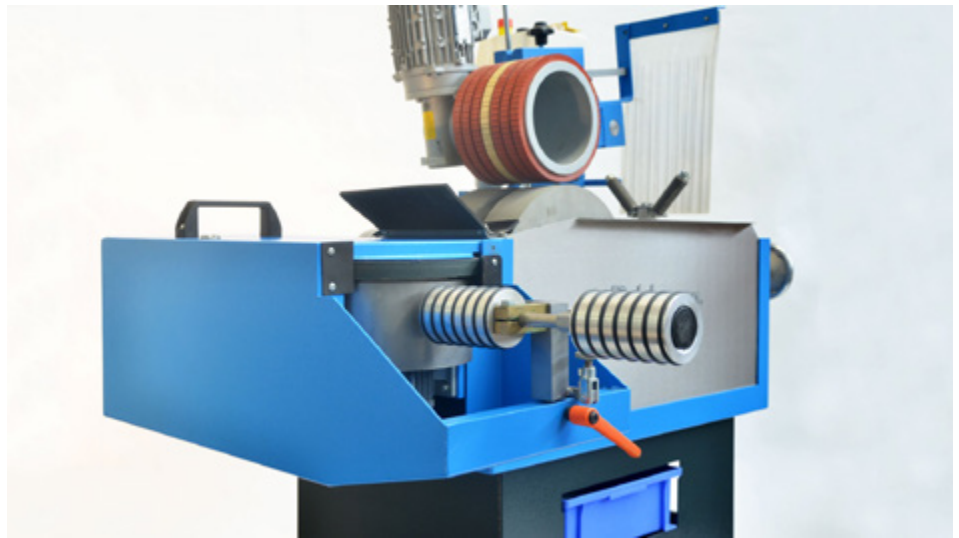

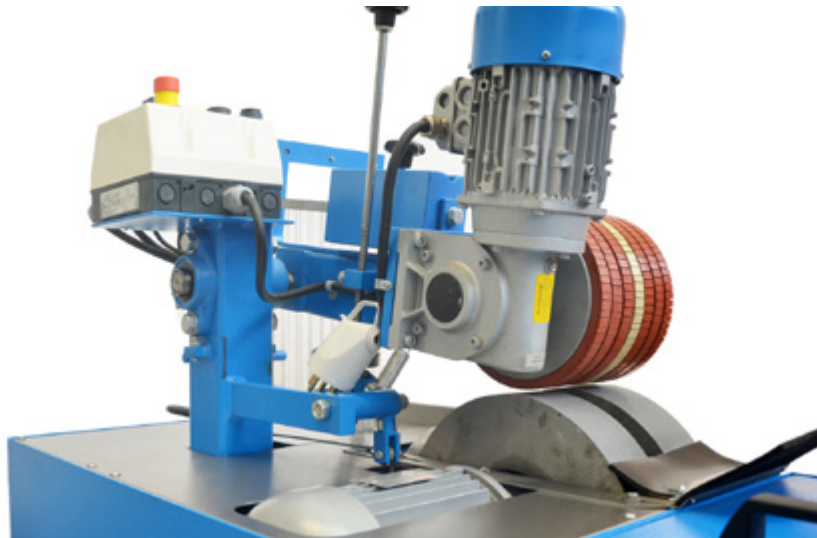

Steel edge tuning machine KFM-UK

The Reichmann steel edge finishing machines are equipped with special polishing discs and tune the ski using the circumferential grinding method over the entire length of the ski without rounding the edge. Cross scoring does not occur with this grinding process. Through the mirror finish, the ability to turn and the edge grip of the ski are optimized. With the help of the side edge finish module of the KFM-UK, you can get polished or ground, flat and burr-free side edges over the entire length of the ski thanks to the precisely adjustable grinding angle.

MACHINE TYPE:	KFM-UK
G-NUMBER:	G1072853
CONSTRUCTION YEAR:	2015
CONDITION:	demonstration machine

PRICE AND AVAILABILITY ON REQUEST.

Our terms and conditions apply to this offer: <https://www.reichmann.com/en/footer/terms>

TECHNICAL DATA

Dimensions (L x W x H) in mm	1150 x 840 x 1320
Weight in kg	330
Connecting voltage	400 V, 3 PH/N/PE, 50 HZ
Connecting power in kW	2.46
Connecting plug	CEE 16A 5 pol.
Rotational speed 1/min	910
Coolant tank in l	30
tuning disc	
base edge in mm	Ø 300 x 55
side edge in mm	Ø 250 x 20
grinding belt in mm	20 x 2000
