

# DATA SHEET USED SKI RACK

*(original picture used ski rack)*

## Equipment:

- stainless steel water drainage hood for lateral drainage of melt water
- 4 large pneumatic tires for outdoor transport
- flexible rotating front tires with brakes
- anthracite-coated steel handle
- stable steel frame for a particularly strong hold
- cross bars with rubber coating for a secure hold of the skis & boards
- flexible height adjustment of the cross bars
- combination of Easy and Top Rack: one-sided ski mounts for fixing the ski at a 30° angle (capacity: 15 pairs of skis)

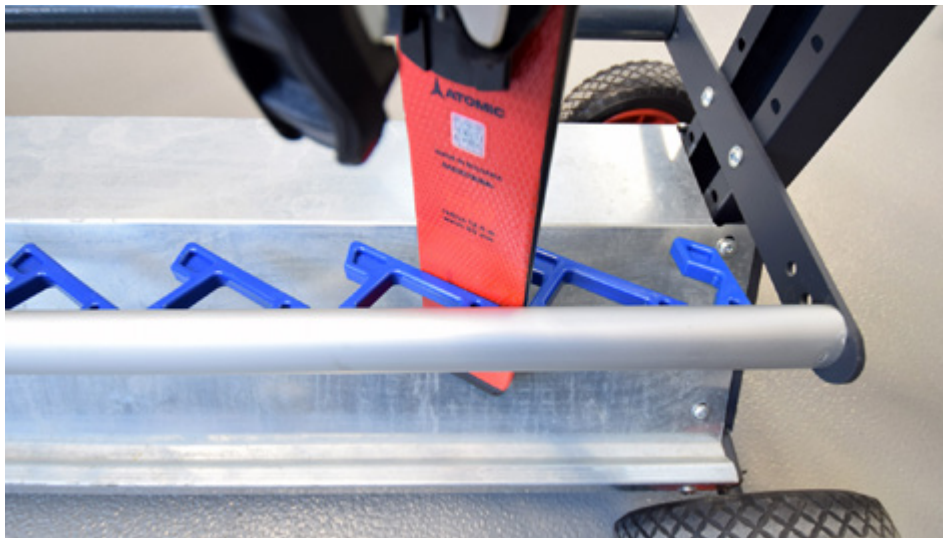

## Heavy Duty Outdoor Rack

The Heavy Duty Outdoor Rack is a particularly robust companion for the outdoor area. The stable steel frame ensures an extra strong hold. With the help of the 4 large pneumatic tires, the ski cart can also be moved safely on uneven ground. The rack is equipped with one-sided ski holders for fixing skis in pairs at a 30° angle. The other side can be used flexibly to store skis and snowboards of different types and lengths.
